IEEJ Journal of Industry Applications
Special Issue on “Motor Drive and its Related Technologies”

Program Committee, Industry Applications Society
Technical Committee of Motor Drives

IEEJ Journal of Industry Applications, which is different from Transactions on Electrical and Electronic Engineering (IEEE) and IEEJ Transactions on Industry Applications, is published from July 2012, bimonthly. In order to have the impact factor of IEEJ Journal of Industry Applications, the special issue is published periodically. Now, we are planning a special issue on “Motor Drive and its Related Technologies” in IEEJ Journal of Industry Applications published on January 2021.

Motor drive and its related technologies are one of the key-technologies for IEEJ Journal of Industry Applications, and it is much important for academic and industrial fields to discuss and clarify the trends of motor drive technologies. In this special issue, we recommend to submit the extended papers of 2020 IEEJ Industry Applications Conference and Technical Meeting on Motor Drive as well as the unpublished original papers on Motor Drive and its related technologies.

Note that some contributed papers may be treated as general papers according to the review process.

Publication schedule for the “Motor Drive and its Related Technologies” Special Issue is as follows.

- Deadline for submission of papers to the Special Issue: 27th - 6th January, 2020
- Publication of the Special Issue: January, 2021
