

CONTENTS

Special Session SI - **Ageing and Treeing** (Invited)

SI-1	Water Tree Material Tests Compared to Service Ageing R. Ross	1
SI-2	Dielectric Properties and I-V-Characteristics of Single Water Trees F. Stucki	7
SI-3	Role of Oxygen in Electrical Treeing N. Shimizu	11

Special Session SII - **Diagnosis** (Invited)

S II -1	The Use of Combined Methods for Location and Identification of PD-Sources in Electrical Insulation M. Kahle	17
S II -2	Experience with Partial Discharge Testing of Operating Motors and Generators G.C. Stone and H.G. Sedding	23
S II -3	Partial Discharge Pattern Recognition Using a Neural Network T. Okamoto, N. Hozumi and T. Imajo	31

Special Session SIII - **Interface** (Invited)

S III-1	Microscopic and Macroscopic Interface Investigation in Solid Polymeric Systems H.C. Käerner	37
S III-2	Electrical Properties at the Interface in Mica/Epoxy Insulation and FRP H. Mitsui, K. Kimura, Y. Higashimura, K. Kadotani and G. Sawa	43
S III-3	Performance of RTV Silicone Rubber Coatings on Insulators - A Review R. Hackam	49

Special Session SIV - **Special Lecture**

SIV	Recent Development of Electrical Insulation Technology in Japan - Progress of Its Modernization and Future Trend - M. Ieda	57
-----	---	----

Session I - **History of Insulation Technology in Japan**

I-1	Historical Review of Insulation Technology in Japan Y. Takahashi, T. Tsukui and Y. Fujiwara	63
I-2	History of Research on Thermal Endurance of Electrical Insulating Materials T. Sunose and T. Ozawa	67
I-3	Development of Insulators in Japan T. Fujimura, R. Matsuoka and K. Taketani	71
I-4	History of Researches on Gaseous Dielectrics and Development of Gas Insulated Apparatuses Y. Shibuya and M. Chiba	75

- I-5 History of the Study of Streaming Electrification of Power Transformer in Japan 79
T. Miyamoto

Session II - Interface

- II-1 Influence of Internal Interfaces on Dielectric Properties of FRP Materials 83
K. Ichikawa, T. Motoyama and K. Kadotani
- II-2 Electrical Treeing in Fibre Reinforced Polymers 87
A. Schütz
- II-3 Surface Breakdown Characteristics of Ceramic Insulation in High Temperature Gases 91
H. Mitsui and R. Kumazawa
- II-4 The Tracking Phenomena and Chemical Degradation of Elastomer Aged by the Acid Rain 95
Dong-Young Yi, Seung Hwangbo, Dae-Hee Park, Kwang S. Suh and Min-Koo Han
- II-5 Optimization of Particle Size of ATH Filler to Enhance Performance of RTV Rubber Coatings 99
H. Deng, E.A. Cherney and R. Hackam
- II-6 Properties of Chemical Vapour Deposition Films on Insulator Surface for Suppressing Flashover 103
Liu Xuezhong

Session III - Measurement and Diagnosis

- III-1 Computer Aided Measurement and Analysis of Pressure Dependence of Partial Discharges in SF₆ Gas 107
T. Kato, M. Hikita and H. Okubo
- III-2 Pulse-Sequence-Analysis, the Physics behind 111
R. Patsch and M. Hoof
- III-3 2-Dimensional Electric Field Measurement Using Electric Field Modulation and Differential Method 115
Seong-Gyun Kim, Dong-Young Yi, Seung-Ik Jeon, Hee-Woong Park, Seong-Chul Kang, Hee-Gon Woo and Min-Koo Han
- III-4 Optical Measurements of Electric Fields in Dielectric Liquids 119
K. Arii and T. Takechi
- III-5 High-Sensitive Measurement of Surface Charge Distribution Using Spatial Optical Phase Modulation Technique 123
T. Kawasaki, S. Suzuki, T. Takada and T. Maeno
- III-6 Measurement of Dielectric Properties of Polyethylene Film at Very High-Field near Breakdown 127
T. Tokoro, M. Nagao and M. Kosaki
- III-7 XLPE Power Cable Insulation Diagnosis using Admittance of Degraded Part 131
M. Kakuta and S. Morooka

Session IV - Electronic Insulation and New Materials

- IV-1 Electronic Properties and Electroluminescence in Conducting Polymers 135
M. Onoda, H. Nakayama and K. Yoshino
- IV-2 Increases of Conduction Currents and TSC in LB Films Adsorbing Cyanine Dyes 139
K. Shinbo, Y. Kobayashi, S. Itoh, M. Watanabe, K. Kato, F. Kaneko and S. Kobayashi

IV-3	Electron Tunneling Process through PI LB Films and Quantum States in POR-PI Monolayer Films	143
	T. Kubota, M. Wada and M. Iwamoto	
IV-4	Characteristics of Capacitors with Organic Conductors as Solid Electrolyte by Ion-Assisted Evaporation	147
	J. Kyokane, S. Tomikawa, D. Fujita and K. Yoshino	
IV-5	Simulation of Tunneling Current at Gate Edge of MOS Structures	151
	H. Muto, H. Kitabayashi, K. Nakanishi, S. Wake and M. Nakajima	
IV-6	Optical Properties of Tantalum Oxide Thin Films Prepared by R.F. Reactive Sputtering	155
	K. Miyairi	
IV-7	Humidity Sensitive Characteristics of Ca(Ti,V)O ₃	159
	J.H. Yuk, Y.H. Kim, J.S. Kim, D.H. Kang and D.C. Lee	

Session V - Liquid and Gas / PD and Diagnosis / Novel Technique and Materials (Poster)

V-1	Measurement of Two-Dimensional Electric Field Vector in Dielectric Liquids	163
	K. Tanaka and T. Takada	
V-2	The Characteristics of Nitrotoluene as Liquid Dielectric of Laser Potential Transformer	167
	Seong-Gyun Kim, Dong-Young Yi, Hee-Woong Park, Min-Koo Han and Jae-Chul Kim	
V-3	Behavior of Dissolved Water in Liquid Dielectrics under High Electrical Field	171
	S. Itahashi, H. Mitsui and M. Sone	
V-4	New Insulating Oil for of DC OF Cables	175
	A. Fujimori, H. Uno, K. Yokota, T. Takahashi, T. Nakatsuka and I. Shigetoshi	
V-5	Thermally Stimulated Current and Morphology of Fazy and Plane Polypropylene Film	179
	S. Ochiai, A. Maeda, K. Kojima, T. Kato, M. Ieda and T. Mizutani	
V-6	Prospects for SF ₆ /N ₂ Gas Mixtures as a Replacement of SF ₆ in Gas-Insulated Cables	183
	Y. Qiu and Y. P. Feng	
V-7	Detection of SF ₆ Gas Leakage in Vacuum Switch Tubes due to the Application of Discharge Characteristics of SF ₆ Gas	187
	H. Fujii, T. Ooishi, K. Nakanishi, K. Koyama, H. Toya and H. Hasegawa	
V-8	Mechanism of Impulse Creepage Discharge in SF ₆ Gas under the Influence of Surface Charging	191
	Y. Ishida, M. Kanegami, M. Hikita, Y. Kito and H. Okubo	
V-9	Heat Transfer Characteristics of Gas Insulated Cables	195
	B.N. Rao and M. Krishnan	
V-10	Study of Partial Discharge Measurement at Very Low Frequencies for Rotating Machine Insulation	201
	K. Haga, F. Natsume and H. Wada	
V-11	On Detection of Partial Discharges by Microwave	205
	Y. Lu, Z-I. Kawasaki and K. Matsu-ura	
V-12	Characteristics of Partial Discharge by Applying Rectangular Pulse Voltage	209
	K. Mori, A. Fukuda and Y. Inoue	
V-13	Characteristics of Partial Discharge on Defects in XLPE Cable Joint Box	213
	K. Uchida, Y. Ohashi, I. Tanaka, M. Tan and T. Takahashi	
V-14	In-Service Insulation Diagnosis of Hydro Generator Windings	217
	Y. Ikeda, N. Hozumi, T. Hirata and A. Asano	
V-15	Development of Diagnostic Instrument by Acetylene and Hydrogen Gas Detector for Oil-filled Equipment	221

	Y. Tanaka, M. Kamba, T. Inuma and Y. Hayashi	
V-16	New Aging Indicators for Polyethylene A. Ionescu	225
V-17	The Study on Raising Measurement Accuracy of Power Capacitor's $\tan \delta$ Cui Wei	229
V-18	Unbiasing Formula for the Weibull Shape Parameter as Estimated with the Maximum Likelihood Method R. Ross	233
V-19	Conduction Mechanism of SP Thin Film Wang Hui and Xu Chuanxiang	237
V-20	3D Fractal Dimension Estimation of Real Electrical Tree in Polymeric Insulating Materials by Sectioning Method S. Kobayashi, S. Maruyama, H. Kawai and K. Kudo	241
V-21	Positron Annihilation and Dielectric Breakdown Properties of Epoxy Resin S. Fujita, M. Ruike, T. Suzuki, H. Kitahara and F. Noto	245
V-22	Tracking Resistance and Dielectric Breakdown Characteristics of Liquid Crystal Polymer H. Homma, N. Hozumi, T. Okamoto and M. Ikeda	249
V-23	Electrification and Space Charge Distribution Measurement in Polyimide LB Films by Surface Potential Method E. Itoh and M. Iwamoto	253

Session VI - Ageing and Treeing

VI-1	The Mechanism of Degradation of Polyethylene in a High Electrical Field K. Kaminaga, T. Suzuki, T. Uozumi, T. Haga, N. Yasuda and T. Fukui	257
VI-2	Factors of Tree Inception under Impulse Voltage in XLPE Insulation Y. Murata, S. Katakai and M. Kanaoka	261
VI-3	Propagation Characteristics of Electrical Tree in the Polymer/Polymer Interfaces S. Maruyama, S. Kobayashi, S. Sagara and K. Kudo	265
VI-4	Frequency Dependent Polarization Processes in Water Trees R. Patsch and P. Romero	269
VI-5	Observation of Water-Tree and Spherulite in Polypropylene by Means of Image Processing M. Yanagiwara, N. Yoshimura and F. Noto	273
VI-6	Generating Mechanism of DC Component by Water-Tree in XLPE Cable Insulation J. Kawai and Y. Ebinuma	277
VI-7	Partial Discharge Pattern and Degradation Diagnosis of Polyimide H. Ichikawa, K. Itoh, F. Komori, M. Hikita, Y. Suzuoki, T. Mizutani and K. Uchida	281
VI-8	Lifetime of Insulating Materials under Simultaneous Stresses A. Ifrim and A. Ionescu	285

Session VII - Conduction and Breakdown

VII-1	Electrical Effects of Partial Discharges in Polymer Dielectrics R. Wlodek and B. Florkowska	289
VII-2	Effects of Space Charge upon Electrical Conduction in Dielectrics N. Kikuta, H. Takai, H. Miyata and T. Takahashi	293
VII-3	Relationship between Electrical Conduction and Distribution of Polar Groups in Low Density Polyethylene M. Ikeda, Y. Li, Y. Tanaka and T. Takada	297

VII-4	Conduction Process in Polymethylpentene S. Asai, H. Kuroda, E.J. Kim and Y. Ohki	301
VII-5	Electrical Breakdown and Molecular Orientation of Polyimide Films K. Iida, S. Nakamura and G. Sawa	305
VII-6	Influence of Curing By-Products on Localized Heat Generation and Dielectric Breakdown in LDPE Film T. Tsurimoto, Y. Mizuno, M. Nagao and M. Kosaki	309
VII-7	Study of Effects of Space Charge on Dielectric Breakdown in Polymers by Laser-Induced-Pressure-Pulse Technique K. Hattori, Y. Suzuoki, T. Mizutani, M. Ieda and T. Suzuki	313
VII-8	Verification of the Trap Model of Electric Breakdown in Polymer by Photo Ageing Wang Xincheng, Tu Demin, Zhang Xiande and Lhadian	317

Session VIII - Conduction and Breakdown / Cable and Apparatus (Poster)

VIII-1	Conduction Characteristics in Ethylene Carbon Monoxide Copolymer S. Uda, T. Asada, Y. Ohki, Y. Tanaka and M. Ikeda	321
VIII-2	Analyses of Discrete States in Organic Substances S. Maeta	325
VIII-3	A Spontaneous Current and Inner Cell Effect in Moisture Absorbed Polyimide Thin Films Y. Muramoto, Y. Mizuno, M. Nagao and M. Kosaki	329
VIII-4	Analytical Approach to Dipolar Contribution to Thermal Pulse Current K. Kaneko, Y. Suzuoki and T. Mizutani	333
VIII-5	Thermally Stimulated Discharge Current Observation of Press-formed High Density Polyethylene Films for Different Manufacturing Processes T. Oda and Shinan Wang	337
VIII-6	Effects of Antioxidants on the Charge Formation in PE Kwang S. Suh, Jae Y. Kim and Min K. Han	341
VIII-7	A Study on the Ion Space Charge in the Dielectric PET Yang Baitun, Zhu Yutao, Zhang Wei, Tu Demin and Liu Yaonan	345
VIII-8	Measurement of Space Charge Distribution in Gamma-Irradiated Polyethylene M. Kojima, Y. Tanaka, T. Takada and Y. Ohki	349
VIII-9	Effects of Space Charge on Electrical Breakdown of Poly-p-xylylene Film T. Mori, T. Matsuoka and T. Mizutani	353
VIII-10	Study of Electrical Properties of γ -ray Irradiated Poly(ethylene-terephthalate) Films Wang Yufen, Qiu Mei, Tu Nianrong, Cao Xiaolong and Liu Yaonan	357
VIII-11	Space Charge Effect on Electrical Breakdown in Polypropylene Film M. Fukuma, M. Nagao and M. Kosaki	361
VIII-12	Electrical Breakdown Characteristics of Liquid-Crystal Polymer K. Akiyama, Y. Ohki and M. Ikeda	365
VIII-13	Study on Improvement of Withstand Strength of Polyethylene in Cables Using Special Additives Liangyu Gao, Wenyan Guo, Xiangxiao Qiu and Huifeng Wang	369
VIII-14	Development of Insulating Materials for DC XLPE Cables T. Uozumi, N. Yasuda and T. Fukui	373
VIII-15	Effect of Additive Concentration in Semicon-Layer on Interfacial Lamellar Angle T. Okamoto, N. Hozumi and M. Ishida	377
VIII-16	Treeing in High Voltage Cables due to Defective Screening M. Krishnan and R. Manjunath	381
VIII-17	Characteristics of Humidity on Partial Discharge Deterioration	385

	Y. Ehara, N. Koizumi, H. Kishida and T. Ito	
VIII-18	Digital Simulation and Analysis of Insulation Ageing Data of Rotating Machine under Thermal Stress S. Ganga	389
VIII-19	Material Database for Machine Insulation K. Kimura, K. Itoh and H. Shibutani	393
VIII-20	Improvement in Fracture Toughness of Epoxy Casting Materials T. Shimizu, M. Kamino, O. Tagaya and Y. Kohzu	397
VIII-21	The Study on Ceramic Metal Sealing Technology of High-Voltage Bushing Cui Wei	401
VIII-22	Endurance Testing of HT Capacitors A. Yellaiah, S.V. Ramana, S.R. Prasath and T.B. Shanker	405
VIII-23	The Studies on the Capacitor Paper Containing Boron with Low Tan δ Cui Wei, Liu Wenzheng and Hu Luilian	409

Session IX - Cable and Apparatus

IX-1	The Electrical Modeling Test of Cable Accessories Design Kwang Chul Lee, Seung Ik Jeon, Sung Geun Oh, Tae Kwang Joo and Key Man Hahn	413
IX-2	Ultrasonic Detection Technique of Epoxy Cast Bushing for 500 kV Oil-Filled Power Cable Accessory Zhu Yongchang, Tu Demin, Wei Dong, Ying Qiliang and T. Takada	417
IX-3	Study of Space Charge in Polyethylene for Cable Insulation by Laser-Induced-Pressure-Pulse Technique H. Kon, Y. Suzuoki, T. Mizutani, M. Ieda and T. Suzuki	421
IX-4	Space Charge Measurement in Water Tree Degraded XLPE Cables N. Hozumi, T. Okamoto, Y. Ikeda and T. Imajo	425
IX-5	Thermal Degradation of Insulating Materials of SF ₆ Gas Insulated Transformers T. Suzuki, Y. Ishioka and T. Kobayashi	429
IX-6	Condition Assessment of Stator Winding Insulation of Large Water Cooled Generators in Service B.N. Rao, K. Mallikarjunappa and S.N. Moorching	433

Session X - General Topics on Insulating Materials

X-1	Mica Flakes Beneficiation from Pegmatites by Electrostatic Separation Al. Iuga, R. Morar, L. Dascalescu, I. Cuglesan, V. Neamtu and A. Samuila	437
X-2	Characteristics of Low Dielectric Constant Transformer Board T. Suzuki, Y. Ishioka, S. Isaka, M. Ikeda and T. Ichioka	441
X-3	High Field Dielectric Properties of Electron Beam Irradiated Crosslinked Polyethylene Film in High Temperature Region K. Tohyama, T. Tokoro, M. Nagao and M. Kosaki	445
X-4	Suppression of Streaming Electrification by Benzotriazole in the Presence of Conducting Contaminants R. Jagadish, P.K. Poovamma and K. Dwarakanath	449
X-5	Influence of Surface Energy of Carbon Black-Filled Semiconducting Layer upon Properties of Solid Insulating Materials Y. Miyashita, A. Someya and H. Kato	453
X-6	Surface Charge Decay Profiles of Insulating Materials S.V. Ramana and J.S. Rajan	457

Appendix: Digest Reports of the Investigation Committees

Effects of Interfaces on Solid Insulating Materials	461
Short-Time Thermal Endurance Test Methods for Electrical Insulating Materials	462
Electrical Insulation of Superconducting and Cryogenic Apparatuses	463
The Insulating Materials Database	464
The Method of Insulation Life Expectancy for Power Apparatus	465
Design and Control of Functional Organic Ultra-Thin Films	466
New Approach to Analytical Methods of the Properties for Dielectric Materials	467
High Electric Field Phenomena and Space Charge in Dielectric/Insulating Materials	468
Computer Application to Dielectric Measurements	469
High Reliability Insulation Technology for Printed Board	470
Author Index	471
