

(a) LAT = 1 (Rotating Exciter Model) (Base Case)

(b) The Excitation System of G1, G4 and G9 are changed to LAT = 2 (Thyristor Exciter Model)

(c) The Excitation System of G1, G4 and G9 are changed to LAT = 102 (Thyristor Exciter + PSS)

Fig.4.7 Additional Case  
 (the excitation system model (LAT) is changed)  
 1cct. 3LG-O at Point A (Daytime Condition)
